AXIS SOLUTIONS LIMITED ANNOUNCES BUSINESS UPDATE RELATING TO PROJECT OF JOHN COCKERILL HYDROGEN BELGIUM SA FOR GAS ANALYZERS FOR THE KAKINADA

Axis Solutions Limited has bagged an project worth approximately **€4.03 Million** (INR 43.51 Cr approximately) from **John Cockerill Hydrogen - Belgium SA** for the design, manufacturing and supply of 100+ Gas Analyzers for the Kakinada project in India.

The project covers Oxygen (O₂) and Hydrogen (H₂) analyzers with sample handling systems for the 32 Gas Separation Units of the project. **The scope comprises H₂ analyzers and O₂ analyzers, with the complete analyzer and sampling system IECEx certified.** It strengthens the Company's portfolio and reinforces its position as a trusted supplier of analyzer and sample handling systems to large, globally executed energy projects, while supporting its growing export business.

This achievement reflects expertise in delivering certified, safe and reliable process analytical solutions for demanding hazardous-area applications and reinforces our commitment to engineering excellence and customer confidence"

PROJECT HIGHLIGHTS

Term	Details
Customer	John Cockerill Hydrogen Belgium SA
Project Value	€ 4,028,800 (approximately INR 43.51 Cr), lump-sum and not subject to escalation
Delivery Period	July 2027 to December 2027

SCOPE OF SUPPLY

Item	Details
Product	Oxygen (O ₂) and Hydrogen (H ₂) gas analyzers with sample handling systems, housed in IEC 60079-46 certified cabinets
Quantity	128 Gas Analyzers, supplied as 32 sets of four analyzers each
Application	One set for each of the 32 Gas Separation Units (GSUs) of the Kakinada project
Includes	Design, Engineering, Manufacturing, Testing and Supply of 128 No.s of Gas Analysers with SHS

MANAGEMENT COMMENTARY

Dr. Bijal Sanghvi, Managing Director, said: *“We are pleased to have won this Project from John Cockerill Hydrogen Belgium SA for the Kakinada project. It is a strong endorsement of our technical capabilities and our ability to deliver critical analyzer systems to demanding global projects. The project adds meaningfully to our project book and supports our export growth, and we remain committed to delivering to the highest standards of quality and on schedule.”*

“We are always delighted when we supply something to China as OEM supplier”.

ABOUT AXIS SOLUTIONS LIMITED

Axis Solutions Limited is an Indian engineering and deep-tech company with over 25 years of experience across Oil & Gas, Water & Wastewater, Automation, Industrial Products and System Solutions. The company’s hydrogen technology portfolio — including Hydrogen, Solid Storage. All technology is developed in India under the Make in India initiative.
