

Axis Dashboard

Your Plant. Your Data. One Unified Platform

Axis Dashboard is a powerful cloud-based Industrial & Infrastructure Monitoring Platform designed to unify all your critical operations - vibration, flow, temperature, analyzers, CCTV, thermal imaging, utilities, alarms, and energy metrics - into one seamless, intuitive interface.

Whether you operate a manufacturing plant, smart utility, critical infrastructure, or urban project, Axis Dashboard brings real-time visibility, operational efficiency, and actionable insights to your fingertips.

Why Axis Dashboard?

All-in-One View
Monitor every device & system from one screen

Industry 4.0 Ready
IIoT-enabled, cloud-connected, mobile accessible

Plug & Play Integration
Works with your existing instruments, analyzers & SCADA

Real-Time Intelligence
OEE, alarms, energy use, and compliance metrics

Scalable & Customizable
Tailored dashboards for each application

What Can You Monitor?

Segment	Applications
Industrial Plants	OEE, Vibration, Temperature, Energy, Water, Analyzers
Utilities & Infrastructure	Power, Thermal, BTU, Weather, Emissions, Alarms
Industrial Plants	CCTV, Air Quality, Effluent, Solar, Traffic Lights
Utilities & Infrastructure	ATMs, Tolls, Cold Storage, Warehouses, Incinerators

Key Benefits

- **Centralized Monitoring**
Combine 100+ data points—flowmeters, analyzers, cameras, PLCs—on one dashboard.
- **Efficiency & Compliance**
Track OEE, energy use, and environmental KPIs in real time. Comply with CPCB, CGWA, and WRD standards.
- **Cost Optimization**
Lower downtime, detect anomalies, reduce energy bills. Powerful ROI within months.
- **Mobile & Remote Access**
Manage your plant anytime, anywhere from your phone or tablet.
- **Custom Alerts & Reports**
Stay informed with automated alarms, daily reports, and email/SMS alerts.

Powered by Smart Applications

Application	Strategic Value
OEE + Utility Monitoring	OEE, Vibration, Temperature, Energy, Water, Analyzers
Emission/Effluent Tracking	Ensure compliance & pollution control
Thermal & Electrical Energy	Optimize HVAC, BTU, and electrical loads
Groundwater & Weather	Compliance & environment protection
ATM/Toll Monitoring	Security, uptime & incident management
Solar & SMB Monitoring	Real-time energy insights
Cold Storage/Warehouses	Temperature regulation, spoilage alerts
Traffic & Infra Control	Smart city-ready automation, and many more

Ready Tools for Implementation

- Live Dashboards & ROI Calculator
- Explainer Videos & Case Studies
- Plug-n-Play Integration Kits
- Compliance Documentation (CPCB, CGWA, etc.)
- Mobile App View & Alerts
- Whitepapers & Technical Brochures
